

## K-6 Science Assessments

### Materials from the Oneida BOCES Science Center to enhance your curriculum

The Science/ELA Effective Communicator Manuals were developed to help integrate science and language arts. Various English process skills such as following directions, sequential order, science journal writing, etc., are applied to the science content taught in each specific science kit. For the teachers, there are samples of what the students' work should look like, along with the appropriate rubrics at that grade level. Students doing the Constructed Response portion of the tests are required to answer a question in regard to interpreting a diagram or chart.

#### Science/ELA Effective Communicator Manuals:

K-6	\$65.00 each
5-8	\$50.00 each
7-8	\$35.00 each
9-12	\$35.00 each

Payment for these materials will be processed through a cross-contract with your district. You may fax your order to 315-736-4427. Please sign your order, print your name and specify your district and building.

Individual Teacher Manuals may be purchased at a cost of \$10.00 per book. The following skills manuals were revised to reflect changes in the Math Standards:

- *Sorting*
- *Gather, Graph and the Weather*
- *Introduction to Controlled Studies*
- *Buoyancy*
